An Update on Falun Dafa Worldwide

VOLUME 1 ISSUE 10 MARCH 19, 2006

## Unconscionable Atrocities

**Where thousands of innocent people  
have their organs harvested to be  
sold for profit...**

**... while they're still breathing**

(Clearwisdom.net) The Chinese Communist Party (CCP) not only physically and mentally tortures Falun Dafa practitioners, but also murders them and sells their bodily organs for huge profits when none of the torture methods lead them to recant their beliefs. They harvest the organs when practitioners are still alive and then cremate the bodies to destroy the evidence. Such heinous behavior offends both heaven and earth!

Unfortunately, the recent revelation of the illegal harvest of Falun Dafa practitioners' organs is not entirely surprising to us. Based on confirmed reports by the Minghui/Clearwisdom website, in 2001, many murdered Falun Dafa practitioners' bodies had their organs removed, and the bodies were immediately cremated. A man (non-practitioner) that used to be detained in the Baiyun District Drug Rehabilitation Center in Guangzhou City, Guangdong Province revealed that in 2001, he witnessed several drug addict prisoners beating a Falun Dafa practitioner. The center's doctor that was standing nearby said, "Don't hit him in the kidney. The kidneys are very useful."

In February 2001, Falun Dafa practitioner Mr. Ren Pengwu from Harbin City was tortured to death in the Hulan County Second Detention Center. Without his family's consent, his organs were removed, and his body was hastily cremated. The police forbade his family to take any pictures of his body.

In July 2001, Falun Dafa practitioner Ms. Yang Ruiyu was arrested from her workplace and tortured to death only three days later. The police did not allow her family members to speak out, did not allow her husband or daughter to go near her body, and did not allow her friends see the body. Policemen escorted her body to the crematorium and made sure that it was cremated immediately, but witnesses said there was a fist-sized hole where her kidney was.

The horrifying crimes of the CCP have been exposed by people of conscience. We are sad to see that under CCP rule, there are so few Chinese people brave enough to speak the truth. They are terrified by the fact that the CCP's political movements have killed more than 80 million people over the years. Besides Sujiatun, how many crimes are still hidden?

### Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. The practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

### About Clearwisdom

Clearwisdom.net is the most authoritative source of information about the practice of Falun Gong and about the persecution of Falun Gong in China, reporting timely news and events happening inside China as well as from the more than 70 countries around the world where Falun Gong is practiced. Clearwisdom responsibly publishes the experiences and understandings of practitioners themselves, who submit the majority of the articles.

## NGO Calls for Investigation of Sujiatun Concentration Camp

(Clearwisdom.net) At 2:00 p.m. on March 16, a house hearing, "Monitoring Respect for Human Rights Around the World: A Review of the *Country Reports on Human Rights Practices for 2005*" - was held at the Rayburn House Office Building in Washington, DC. Nina Shea, director of Freedom House gave a testimony and called for investigation of the Sujiatun Concentration Camp.

Ms. Nina Shea said, "Though still being investigated and yet to be verified, a report has surfaced that is so grave it warrants mentioning here: According to a Chinese journalist who recently escaped to the United States, a concentration camp, Sujiatun, in the city of Shenyang, has been specially constructed to hold some 6,000 Falun Gong practitioners from northeast China. The camp is said to have a large staff of doctors, whose job there is to conduct experiments on the prisoners and kill them efficiently. It is said to include a crematorium to dispose of the evidence.

Ms. Nina Shea, director of Freedom House

Congressman Smith pointed out that human rights are not a compromise or welfare given by a government, but are the basic rights of everyone based on human beings' dignity and worth. Smith said that some human rights are fundamental and are the foundation of other rights. Among them, the right to live is the foremost. If one's life is endangered, all other rights will become meaningless.

## Falun Gong Saved My Grandmother

My grandparents are both over 80 years old. They have been kindhearted and hard working all their lives. When my mom, their only daughter, died, my grandmother suffered from the shock and her health declined. She was forced to go to the hospital in May 2005 to find out what was wrong with her.

When I saw my grandmother, I felt very sad. Her face was sallow and weary. She had an ultrasound, a CT scan and an MRI, which showed a tumor in her liver, possibly cancerous. The doctors said a woman of her age in this condition would probably not live for more than half a year, and an operation would be very risky. She could do nothing but take medicine and go back home. Her fever persisted, she could not eat, and the transfusion she'd had was causing her a lot of pain, but there was nothing we could do.

I thought that only Falun Dafa could help her at this point. First I had to persuade my grandfather, since he looked after her. My grandfather was skeptical but still hoped for the best. Miraculously, after Grandma listened to recordings of Master Li teaching Falun Dafa for three days, the long lasting fever retreated. She stopped taking any medications except for some digestive aids. She got better and better, and I did not worry anymore.

Then, after a while, Grandma got worse again. My grandfather had begun to doubt that it was possible to have diseases cured just by listening to Dafa lectures, so he had stopped letting her listen to the lectures for a long time. I went back to persuade him again. I was able to convince him to let her listen, and he also read the book, "Be Saved from a Desperate Situation" that I took him. When I went to visit for Chinese New Year, my grandmother was able to eat again. Grandpa said to me in tears, "I read the book you gave to me. It is true! Your grandma recovered!"

## Washington, DC: Exposing the Sujiatun Concentration Camp in Front of the White House

(Clearwisdom.net) From 7:00 a.m. on March 16 to 7:00 a.m. on March 18, Falun Gong practitioners from Washington, DC and nearby areas held a 48-hour continuous sit-in on Lafayette Square in front of the White House, to condemn the Chinese Communist regime's atrocities at the Sujiatun Concentration Camp and to call on the U.S. government and all other countries to take immediate action to stop the arbitrary killing of practitioners in China. On the evening of March 16, practitioners held a candlelight vigil to commemorate practitioners persecuted to death by the Chinese Communist Party (CCP).
