An Update on Falun Dafa Worldwide

VOLUME 4 ISSUE 26 JULY 23, 2009

Mr. Li Guangwei Has Been Missing for Four Years

Mr. Li Guangwei, who was born in August 1935, is a retired teacher from Songbaixiang Primary School in Jiangxi Province. He was famous for his Chinese calligraphy and painting. At about 9 a.m. on July 25, 2005, he disappeared, and as of today, nobody knows his whereabouts.

At the end of 1998, Mr. Li contracted a serious illness, and he went everywhere looking for a cure, but in vain. When his wife heard that Falun Gong has miraculous effects in healing illnesses, she tried to talk him into practicing it. Because he was very sick and couldn't walk, his wife helped him to get to the exercise site. Soon after he started practicing, his physical condition improved, and he could go to the exercise site and join study in a group by himself.

Soon, on July 20, 1999, the persecution of Falun Gong practitioners began. After police officers found that he was doing the exercises at home, they ransacked his home, and confiscated his Dafa books and exercise tapes, and also took him away. During the Cultural Revolution, he was badly wounded, and therefore, he was extremely petrified. As a result, he had a relapse of his old illness. After he came home, he was very sad. He bought some ink and paper, and then began to write his cultivation experience sharing report. Practitioners all follow closely the principle of "Truthfulness-Compassion-Forbearance", and try to be good and more noble people at different levels. He put his experience sharing report and truth-clarification materials regarding the lies fabricated by the Chinese media in the mail. He sent them to people who were not clear about the truth and also to his fellow painters. As a result he was monitored. He had mentioned to his family that some people were following him when he went out. Therefore, he stopped going out for a while.

On July 25, 2005, when he couldn't stand it anymore, he told his family members that he wanted to take a walk, and would come back shortly. However, four years have passed already, and he has never returned. His wife, daughter, and son went all over to look for him, and also reported his disappearance to their local police office. They have been to many police departments, and even the mayor's office. However, everyone refused to help them for the simple reason that Mr. Li practices Falun Gong. Moreover, they even threatened his daughter by saying, "Be sure not to get yourself in trouble."

Now four years have passed and nobody knows whether Mr. Li is still alive or not, how much he has suffered, and his family members are even scared to think about that.

Mr. Li Guangwei, had been granted the title "World Famous Person for Calligraphy and Painting" by the International Artists' Association, World Calligraphy and Painting Association, Belgium World Culture Exchange Center, China Famous People for the Arts of Calligraphy and Painting Research Institute, and other institutions, 16 in total.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice that benefits physical health and elevates the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent efforts on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Political Leaders in New Zealand Support Falun Gong and Condemn the Persecution

(Clearwisdom.net) To commemorate Falun Gong practitioners who were tortured to death by the Chinese Communist Party (CCP) and call on New Zealanders to pay attention to the CCP's crimes and human rights violations in China, Falun Gong practitioners in New Zealand will hold events on Elizabeth Square in downtown Auckland on the morning of July 18, 2009. In advance of the activity, New Zealand political leaders wrote letters to express their support and call for an end of the persecution.

Regenerative Obstructive Anemia Miraculously Disappears

(Clearwisdom.net) I am a villager from Mengyin County, Linyi City, Shandong Province. In February 2003, I was fourteen years old and in the sixth grade. At that time, I was diagnosed with regenerative obstructive anemia. I was hospitalized and needed blood transfusions to stay alive. The transfusions had to be done once every two weeks. In spite of this treatment, my health continued to deteriorate.

My doctor told my parents that patients with my condition would not be able to take care of themselves and that I was in grave danger. My family borrowed every penny they could from relatives and friends to pay for the treatments, but the money ran out and my treatments came to an end. My health showed no signs of improvement.

At this most difficult time for my whole family, a cousin of mine came to visit us. She told me that learning and practicing Falun Gong could help. She had suffered from various diseases herself and had recovered from all of them after practicing Falun Gong. Therefore, she suggested that I should learn Falun Gong too.

The next day, my cousin brought the book Zhuan Falun. I read it at once from beginning to end. Then my cousin taught me the exercises. From then on, I read the book during the day and did the exercises at night. In the beginning, I did not have a deep understanding of the Fa (principles), so I was still taking medication while studying. In a round of karma elimination, my family sent me to the hospital and I had a blood transfusion. After two weeks, I developed red spots on my skin and my blood count dropped. After that, the miracle started. As I continued studying Zhuan Falun and doing the exercises, the color returned to my pale hands and feet. My nosebleeds gradually stopped and the color returned to my face as well. My thighs were no longer swollen and my appetite was back to normal. I felt full of energy and my blood pressure was normal again. My whole family was elated. My neighbors all said, "You are really lucky to have regained your life."

Indeed, my life was restored completely due to my great Teacher's benevolence. My mother said in tears, "Child, you must study the Fa well. If it were not for your Teacher's rescue, our whole family wouldn't have the life we have today."

It has been six years since then. My health is perfect and I live a normal life the same as others. Before, this was completely beyond my wildest imagination.
