Mr. Yang Guiquan's Family Seeks Justice for His Death in Police Custody

(Clearwisdom.net) Mr. Yang Guiquan, 45 years old, was a Falun Dafa practitioner from Fuxin City. While imprisoned at the Xindi Detention Center in Fuxin City, he was tortured, and he died on July 5, 2009. Major wounds were noted on his back as well as on the back of his skull. Signs of electric shocks were also observed on his legs.

After Mr. Yang's death, his family was prevented from contacting the outside world because the authorities feared that they would appeal, sue, or try to find out the reason behind the ambiguous official stated cause of death.

Mr. Yang's friends tried to hire a lawyer to investigate the crimes committed by the authorities. However, none of the local lawyers dared to work on Mr. Yang's case. They were told, "The Liaoning People's Court has recently released a document prohibiting lawyers from defending Falun Gong practitioners."

Yang Guiquan was born on January 2, 1964. He lived in Apt 604, Building 1, Meihai District, Beixin Village, Xihe District of Fuxin City. He was an employee of Rongxing Plastics Ltd. in Fuxin City.

At around 6 p.m. on June 20, 2009, Mr. Yang was reported to the authorities while distributing flyers at the Fuxin City Mall to expose the facts about the persecution of Falun Gong. He was arrested by policemen from the Haizhou District Public Security Bureau's Political Protection Section led by Wu Zhongqi. Wu and his officers interrogated Mr. Yang for many nights, not allowing him to rest, and eventually imprisoned him at the Xindi Detention Center. Once he arrived at Xindi, Mr. Yang began a hunger strike to protest the illegality of his detention. Wu Zhongqi and his officers then began torturing Mr. Yang, including brutally force-feeding him. By July 5, Mr. Yang's health was in great danger.

During Yang's detention, his 80-year-old mother went to the Haizhou District Public Security Bureau several times to request her son's release, but this was refused by Wu Zhongqi and his officers. Family member were forbidden from visiting him. Even when Yang's company supervisors demanded his release, the Political Protection Section refused.

Mr. Yang passed away at 3 p.m. on July 5, yet the authorities waited until after 8 p.m. to notify his relatives. Several hours before his death, Mr. Yang was taken to a hospital, and then brought back to the detention center. A few hours later, Mr. Yang was sent to the Fukuang Group Central Hospital, where doctors made the diagnosis that the patient had already stopped breathing and his heart had stopped. There was blood on the back of Mr. Yang's body and on the back of his skull, and signs of electric shocks could also be seen on the insides of his legs.

Introduction to Falun Dafa

Falun Dafa, also known as Falun Gong, is a practice for benefiting physical health and elevating the mind. Introduced by Mr. Li Hongzhi in China, the practice consists of five gentle exercises including meditation, and diligent effort on the part of practitioners to follow the universal principles of Truthfulness-Compassion-Forbearance in daily life. Falun Gong is not only beneficial to one's own health and well-being, it also benefits others. Although the practice originated in China, today it is practiced throughout the world by people of all races and walks of life. In the face of the most brutal and vicious persecution perpetrated on them by the Chinese Communist Party, Falun Gong practitioners have found the spiritual strength to resist peacefully and tirelessly by upholding the principles of Truthfulness-Compassion-Forbearance.

Toronto, Canada: Practitioners Participate in Caribana Parade

(Clearwisdom.net) On August 1, 2009, the annual grand Caribana Parade was held along Lake Shore Boulevard in Toronto. It was estimated that 1.3 million people watched the parade. The Toronto Falun Gong group of 140 practitioners presented the Divine Land Marching Band, a dragon dance, a waist drum troupe and a "Great Law Boat" float.

A spectator from Los Angeles remarked, "This is my first time to see such a spectacular Chinese marching band and I am moved. Their performance added many beautiful moments to the parade."

Falun Dafa Saved My Relatives

(Clearwisdom.net) The wide spread of Falun Dafa has saved countless lives. Here I would like to share two stories about the miraculous power of Falun Dafa in saving the lives of two of my relatives.

An older relative had a sudden stroke in October of 2006. He was taken to the hospital and the family asked several specialists from the hospital in the provincial capital to take a look at him. They all said that the thrombosis has reached 2/3 and there was no hope left. He was in the hospital for more than a month and the family spent more than 50,000 yuan (7,320 USD) for his treatment. When he returned home, my relative could not get up from the bed, he could not speak clearly, and his mouth was crooked. His family was desperate about his situation.

I went to see him and gave him some Falun Dafa information. I then told him that he must quit the Chinese Communist Party (CCP) and he agreed. I recited Master Li's Introduction from *Zhuan Falun* (the principal text of Falun Dafa) for him. He asked me to write it down. Two days later, I brought *Zhuan Falun* with me and read it to him. He listened and said it was so good. At that moment, his mouth became normal and he was able to speak clearly. Several days later, he was able to get up with the help of a rope tied to the bed. Then he was able to get off the bed and walk with crutches. He could talk even louder than before he got sick. His memory is now very good. He can memorize many family members' phone numbers.

My relative is now almost 70 years old, but his eyes are very bright and piercing. Whenever he has time, he recites "Falun Dafa is good" and "Truthfulness-Compassion-Forbearance is good." He knows that only Falun Dafa could have saved his life.

My second relative is my brother-in-law's wife. Last year she found out she had a malignant tumor. After surgery she had chemotherapy treatment four times. The doctor said that the cancer was in mid to late stage. The family spent between 60,000 to 70,000 yuan for her treatment. After I heard about her situation, I called her and invited her to come to my home for the Chinese New Year.

She and her family came over right before the Chinese New Year. At the time she had just finished another round of chemotherapy treatments, and her head was thoroughly bandaged. I hurriedly came up to her and supported her with my arms. She began to cry when she saw me. We prepared lots of delicious dishes for dinner. She told me that every time she had a chemotherapy treatment, she was not able to eat much for a whole week, but somehow today she could eat a lot. I gave her some Falun Dafa materials to read. She accepted them and listened to Master Li lecturing on Dafa. Her body began to recover very quickly.

She asked me to tell her about the persecution of Falun Dafa and said that she would tell her friends and family members about it. Her entire family accepted the Dafa materials. They stayed with us for more than two weeks, and when they were leaving, I gave my sister-in-law my MP3 player. She said she wanted to continue studying Dafa, and there are Fa lectures in the MP3. Later, she went back to the hospital for a check-up, and found that the tumor was gone. She is completely healthy now. She is gaining weight and her complexion looks very good. She is able to do all kinds of work again.
