

By Ordering to Shoot Dafa Practitioners, the Criminal Gang of Jiang and Luo is Bringing About Social Disturbance and Disaster to China

(Clearwisdom.net) Whom the Gods would destroy, they first make mad. The more irrational the evil beings become, the closer their destruction.

Minghui Net reported on March 4th, according to insiders from the Public Security Bureau, that the Changchun (capital of Jilin Province) police conducted a massive roundup and arrest of Dafa practitioners for several consecutive nights before the Chinese Spring Festival. The order issued then was to shoot Dafa practitioners on the spot if they were found to be posting Dafa statements or hanging up Dafa banners. Even the staff in the Public Security Bureau did not understand why there was such an order.

Why do these vicious people put so much effort in preventing Dafa practitioners from posting Dafa statements and hanging up Dafa banners? It is because they know in their hearts that what Dafa practitioners say is true and what Dafa practitioners do is the most righteous thing. Nothing in the world can stop the spread of the truth and righteous actions.

The XX party has long been claiming that "political power comes from the barrel of a gun." But can brandishing a gun assure the stability of the society?

Didn't Ceausescu also hold on to power when he was still the president of Romania? Didn't he launch a civil war to assure his power? Didn't he ask his thugs to pour poison into the drinking water of the city? Seeing that he had done too many evil things and killed too many people, even the military troops could no longer take it and they immediately turned against him. Both Ceausescu and his wife were finally executed.

How did the former Soviet Union collapse? How did Marcos of the Philippines fail to remain in his position? How was Jiang's old friend Milosevic arrested? Haven't we had enough lessons from history?

Now people from all walks of life in China have come to understand what Falun Gong is really about. Many policemen have realized the truth and they are only paying lip service to the orders [to persecute Falun Gong] just to keep their jobs. But if Jiang gives orders to start killing and that angers the public, then the reaction of the people will be a whole other situation.

Jiang's rule has done too much evil and it will soon come to an end. The order to shoot Dafa practitioners can only bring it closer to its own destruction. Awaken from lies, people of the world! Please do not follow the evil as it takes a path straight for hell.
